Carestream Health Partners with EXAMION to Bring Innovative, Future-Focused Healthcare Imaging Solutions to Germany

ROCHESTER, NY, October 10 — **Carestream Health announces a new future-focused partnership with EXAMION, a leading provider and servicer of medical imaging solutions in Germany for more than 30 years. The alliance strengthens Carestream’s commitment to providing healthcare organizations in Germany and throughout Europe with innovative diagnostic imaging solutions that help enhance both user and patient experiences while helping to improve clinical outcomes and streamline radiography workflows.**

“Carestream offers a rich portfolio of diagnostic imaging solutions that can help German healthcare organizations of all sizes improve both patient care and operational efficiency,” said Jane Moverley, Director of International Sales at Carestream Health. “EXAMION is well-known and respected for its reliability and service in the medical imaging market. They are an ideal partner to help radiology departments throughout Germany leverage Carestream’s innovations to meet their most pressing challenges.”

X-ray Rooms for Facilities of All Sizes

EXAMION will bring the Carestream DRX-Compass and premium DRX-Evolution Plus medical imaging systems to the German market. Both solutions offer modular designs to fit individual spaces, workflows and budgets. Key features include:

- Scalable designs that adapt quickly to changing provider needs
- Modular designs that protect against obsolescence with the addition of new features and capabilities
- Full functional benefits of a digital X-ray room
- Optional AI-based Smart DR Workflow with Smart Positioning, Smart Technique, and Smart Collimation

“We are pleased to expand our offerings to include the innovative digital X-ray imaging systems available from a well-respected company like Carestream Health,” said Bernd Schleicher, Chief Financial Officer of EXAMION. “Healthcare facilities throughout Germany can rely on EXAMION for comprehensive and competent service and support for all their Carestream medical imaging solutions.”

Information about EXAMION

EXAMION is a specialised provider of digital radiography solutions for human and veterinary medicine operating from Germany. The company was founded in Stuttgart in 1989 and has developed into an experienced medical technology company over the past 30 years.

In addition to classical radiography, the product portfolio includes the areas of mammography, X-ray therapy and digital image processing. In human medicine, EXAMION works in the areas of hospital, private practice and mobile X-ray. In veterinary medicine, EXAMION offers stationary and mobile systems for small animals and horses.

Within Germany, EXAMION offers comprehensive service and advice through its own branches. Internationally, the company's own locations in Belgium, Poland, Portugal and Switzerland are supported by a constantly growing network of qualified sales and service partners.

About Carestream Health

Carestream is a worldwide provider of medical imaging systems; X-ray imaging systems for non-destructive testing; and precision contract coating services for a wide range of industrial, medical, electronic and other applications—all backed by a global service and support network.
